

Let's chat!

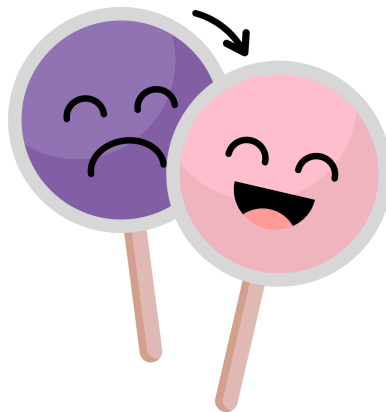

Maid In America is a different kind of house cleaning company...

How **Maid in America**
can care for your
HOA clubhouse facility

Why should a professional company clean the HOA clubhouse facility instead of an HOA member?

Some HOAs volunteer taking turns cleaning, however, not everyone fully understands the meaning of clean! It doesn't take too long before it is realized that this is an important item to figure into the budget. So, be kind to one another and let the professionals do the dirty work so no one's feelings get hurt.

What about reliability?

A professional cleaning company is staffed accordingly to ensure reliability that allows for non-stressful appointment planning. They show up on time and are properly equipped to handle the cleaning project.

Will cleaning supplies be provided?

The professional cleaning company will provide the cleaning products, thus, saving a few dollars for the HOA. The right products are an important consideration as well. A cleaning company who is concerned about the health of individuals and the environment will not use bleach, ammonia, phthalates and other toxic products. It's a perfect opportunity to be kind to others as well as to our lakes and streams.

Why use Maid in America as your trusted source to care for your clubhouse community?

- 30+ years of professional experience in the cleaning industry
- Trained, dependable cleaning professionals
- Liability Insurance Coverage
- Licensed & bonded
- Locally owned & operated
- Eco-friendly green cleaning

AND...

We have been voted multiple years for Best Cleaning Company starting in 2018.

Both clients & the local business community trusted us so much that we were given this prestigious cleaning award amongst several other nominees including 2 large reputable franchises.

We are honored to be given this.

We give back to our community by partnering with a non-profit, "**Cleaning for a Reason**"

We provide free cleaning services to women going through cancer treatment. Ask me how we may be able to serve someone you love so she can focus on her healing, not cleaning. As a breast cancer survivor I enjoy sharing my personal story:
